

LESLIE PATINO

Full Stack Developer

I'm a Full Stack Developer with a background in management, digital marketing, and event logistics. My career has always been focused on problem-solving and finding creative solutions to struggling areas within organizations. I aim to leverage my knowledge and skills to develop thoughtful and intelligent web applications.

Work History

- Lifestyle Director | 2020-2021
- Assistant Spa Director | 2018 - 2019
- Event Specialist | 2013 - 2020

Technical Skills

- HTML
- CSS
- Javascript
- jQuery
- Bootstrap
- Server side API's
- NodeJS

Projects

Map-A-Test: Find a Covid Testing Site Near You

- My team and I built an app for people in need of a Covid test. Our site displays the closest testing sites based on the user's current location.
- Tech Stack: HTML, CSS, Javascript, jQuery, Foundation, Parsley, Google Maps API, HERE Developer API.

Live Site: laurendarrimon.github.io/find-covid-testing/

Password Generator

- This app generates a custom password for the user based on the criteria they select such as lower or uppercase letters, numbers or special characters.
- Tech Stack: HTML, CSS, Javascript

Live Site: lesliejpatino.github.io/password-generator/

Code Quiz

- This interactive application allows the user to take a 6 question code-related quiz in 60 seconds that will either earn them points or take time off the clock.
- Tech Stack: HTML, CSS, Javascript
